A color calibration chart featuring a grid of color patches. The patches are arranged in two rows. The top row contains patches labeled 1 through 10, and the bottom row contains patches labeled 11 through 20. Each patch is a small square with a specific color and a numerical value printed next to it. The values range from 1 to 20, corresponding to the patch numbers.

A close-up photograph of a portion of a document, likely a form or questionnaire. It shows several checkboxes arranged in two columns. The left column contains checkboxes labeled 19, 20, 21, 22, and 23. The right column contains checkboxes labeled 24 and 25. Each checkbox consists of a small square box followed by its corresponding number.

A color calibration target, likely a Munsell Color Services Lab chart, featuring a grayscale step wedge and color patches. The grayscale steps are labeled 1 through 10, with corresponding numerical values for density or reflectance. The color patches are labeled with their respective Munsell colorimetric coordinates (hue, chroma, and brightness).
